RINGKASAN

Analisis performa adalah suatu kegiatan yang dilakukan oleh perusahaan atau peternak untuk mengetahui tingkat keberhasilan peternakan ayam broiler. Analisis performa akan sangat membantu peternak dalam menemukan masalah yang dihadapi selama proses pemeliharaan. Pengamatan ini dilakukan untuk menganalisis performa pada peternakan broiler sistem *Close House* di PT. Sinar Ternak Sejahtera Farm Wates, Kecamatan Way Lima, Kabupaten Pesawaran. Pengamatan dan pengambilan data dilakukan selama satu periode pemeliharaan broiler yang dilaksanakan pada bulan Juli sampai dengan September 2022. Pengamatan dan pengambilan data menggunakan metode observasi, wawancara, mengikuti semua kegiatan, dan analisis. Berdasarkan hasil pengamatan dan pembahasan perhitungan yang telah dilakukan di kandang 1 pada PT. Sinar Ternak Sejahtera Farm Wates, Kecamatan Way Lima, Kabupaten Pesawaran diperoleh kesimpulan bahwa nilai persentase deplesi sebesar 6,37%, rata-rata bobot panen 1,92 kg/ekor, rata-rata umur panen 32 hari, FCR 1,62 dan *index performance* 347.

ABSTRACT

Performance analysis is an activity carried out by companies or breeders to determine the level of success of broiler farming. Performance analysis will greatly assist farmers in finding problems encountered during the maintenance process. This observation was conducted to analyze the performance of Close House broiler farms at PT. Sinar Ternak Sejahtera Farm Wates, Way Lima District, Pesawaran Regency. Observations and data collection were carried out during a broiler rearing period which was carried out from July to September 2022. Observation and data collection used the methods of observation, interviews, following all activities, and analysis. Based on the results of observations and discussion of calculations that have been carried out in cage 1 at PT. Sinar Ternak Sejahtera Farm Wates, Way Lima District, Pesawaran Regency, concluded that the depletion percentage value was 6.37%, the average harvest weight was 1.92 kg/head, the average harvest age was 32 days, the FCR 1.62 and index performance 347.
